

ALLIANCE / TYRES / PRODUCT SPECIFICATION

16.9-24 Alliance 304 127A8

The Alliance 304 is an R-1 tread drive wheel tire for application as a rear tractor tire. Its knife-like lugs are designed for deeper penetration of the ground. The double-angle design with a wide space between lugs ensures efficient self-cleaning properties in any kind of soil. The design, based on 45 angle bar with center studs, provides better resistance to side slippage and continuous rolling. The tire is recommended for hillside operations and for occasional short drives on the road. A strong nylon carcass guards against mechanical failures and moisture deterioration.

Technical specification

Brand	Alliance
Range	304
Size	16.9-24
Section width (mm)	429
Overall diameter (mm)	1335
Loaded static radius (mm)	601
Rolling circumference (mm)	3933
Listed rims	W15L W15A W14L W14A
Rating	6
Load index	127
Speed rating	A8
Service description	127A8
