

ALLIANCE / TYRES / PRODUCT SPECIFICATION

18.00-25 L-3 Alliance 318 180B 28 PR

Alliance 318 is continuous lug design pattern that ensures excellent traction and makes it ideal for high torque equipment. Its strong nylon casing with reinforced & High turn up bead provides additional strength, low flexing while the sidewall design ensures low heat build up and longer tire life. The wear resistant compound protects against wear under varied conditions.

Technical specification

Brand	Alliance
Range	318
Size	18.00-25 L-3
Section width (mm)	498
Overall diameter (mm)	1617
Loaded static radius (mm)	726
Rolling circumference (mm)	4760
Listed rims	13
Rating	28 180B
Ply rating	28
Load index	180
Speed rating	B
Service description	180B
