

ALLIANCE / TYRES / PRODUCT SPECIFICATION

26.5-25 Alliance 318 20 PR TL

Alliance 318 is continuous lug design pattern that ensures excellent traction and makes it ideal for high torque equipment. Its strong nylon casing with reinforced & High turn up bead provides additional strength, low flexing while the sidewall design ensures low heat build up and longer tire life. The wear resistant compound protects against wear under varied conditions.

Technical specification

Brand	Alliance
Range	318
Size	26.5-25
Section width (mm)	673
Overall diameter (mm)	1750
Loaded static radius (mm)	742
Rolling circumference (mm)	5068
Listed rims	22.00/3.0 22.00
Tube type	TL
Ply rating	20
