

ALLIANCE / TYRES / PRODUCT SPECIFICATION

12.4/11-24 Alliance 357 129A8 12 PR

A tractor tire with extra strong lugs for heavy-duty services, that is engineered for high power transmission under the most tough working conditions. Double angle design enables efficient self-cleaning. A 45 degree lug angle around the centerline provides continuous rolling and lower rolling resistance on the roads, as well as lower side slippage during off-the-road and hillside operations. A strong nylon carcass guards against mechanical failures and moisture deterioration.

Technical specification

Brand	Alliance
Range	357
Size	12.4/11-24
Section width (mm)	315
Overall diameter (mm)	1160
Loaded static radius (mm)	534
Rolling circumference (mm)	3496
Listed rims	W11 W10 W9
Rating	12 129A8
Ply rating	12
Load index	129
Speed rating	A8
Service description	129A8
