

ALLIANCE / TYRES / PRODUCT SPECIFICATION

900/75R32 Alliance 375 190A8

A new Alliance 375 Front Harvesters series is characterized by high tire volumes, high load capacities and low inflation pressure. An aggressive R1-W tread pattern, accomplished with sharp shoulders solution, enables excellent grip. High traction capabilities as well as, minimum possible slippage, promises constant travel speed necessary for proper harvesting operations. A special steel belts construction, as well as Stubble Guard tread rubber compound, promises a long and efficient lifetime. The main application of 375 series is on Vegetable harvesters (Potato and Sugar beet Combines), Grain Harvesters, Big spreaders and High load capacity driven equipment.

Technical specification

Brand	Alliance
Range	375
Size	900/75R32
Section width (mm)	940
Overall diameter (mm)	2155
Loaded static radius (mm)	965
Rolling circumference (mm)	6377
Listed rims	DW30B DH31H
Load index	190
Speed rating	A8
Service description	190A8
