

ALLIANCE / TYRES / PRODUCT SPECIFICATION

600/65R34 IMP Alliance 388 164D

Alliance 388 is designed to meet the requirement of severe agricultural applications ranging from spreaders to special trailers (eg. for sugar cane production and implements). The directional tread pattern provides moderate traction as well as efficient self-cleaning. The tire's large soil contact area, strong rounded lugs and low inflation pressure promises low ground pressure thus minimizing soil compaction and damage. Dense lug distribution around the tire enables smooth and efficient movement on roads.

Technical specification

Brand	Alliance
Range	388
Size	600/65R34 IMP
Section width (mm)	610
Overall diameter (mm)	1650
Loaded static radius (mm)	749
Rolling circumference (mm)	5017
Listed rims	20
Load index	164
Speed rating	D
Service description	164D
