

ALLIANCE / TYRES / PRODUCT SPECIFICATION

440/80R28 Alliance 580 156A8 / 156B

Alliance 580's unique tread pattern enables strong grip and high traction performance on soft surfaces, as well as comfortable work on hard surfaces. Its carcass construction contributes to high stability of the machine, especially when working on sloppy terrains, and complete puncture protection. This tire, because of its central lug design, is well suited for both on and off road making it a good tire for multi-purpose transportation. The tires' long tread life and low tread wear are based on its specific tread design and durable tread rubber compound.

Technical specification

Brand	Alliance
Range	580
Size	440/80R28
Section width (mm)	460
Overall diameter (mm)	1410
Loaded static radius (mm)	640
Rolling circumference (mm)	4281
Listed rims	DW14L
Rating	156A8 156B
Load index	156
Speed rating	A8 / B
Service description	156A8 / 156B

Specification notes
