

ALLIANCE / TYRES / PRODUCT SPECIFICATION

335/80R20EM (12.5R20) Alliance 608 147A2 / 136B

Alliance 608 is an innovative approach to compact machinery tire design. It provides low motion resistance which contributes to lower fuel consumption of compact machines. The tire's tread pattern is an optimized on/off road pattern with shoulder lugs for traction in the fields, as well as long tread life because of massive central blocks when the machine works on harder surfaces. The tire construction includes both, all fabric and steel belted variants.

Technical specification

Brand	Alliance
Range	608
Size	335/80R20EM (12.5R20)
Rating	147A2 136B
Load index	147 / 136
Speed rating	A2 / B
Service description	147A2 / 136B

Specification notes

Multiple service descriptions are listed for this size. Tell us your application, load and speed so the required specification can be confirmed. Please ask Nordic to confirm the remaining dimensions and wheel requirements for your application.
