

ALLIANCE / TYRES / PRODUCT SPECIFICATION

12.00-24 Alliance 775 20A2 20 PR

Alliance 775 is engineered specifically for port service applications. It features an exceptionally abrasion resistant rubber compound that minimizes heat generation for extended tread life. The solid center enhances wear characteristics. The wide flat tread profile maximizes tread to surface contact for superior stability and wear. The specially constructed casing resists separation between plies as well as between the tread and the casing under high stress.

Technical specification

Brand	Alliance
Range	775
Size	12.00-24
Section width (mm)	315
Overall diameter (mm)	1245
Loaded static radius (mm)	585
Rolling circumference (mm)	3808
Listed rims	8.5
Rating	20 A2
Ply rating	20
Load index	20
Speed rating	A2
Service description	20A2
