

ALLIANCE / TYRES / PRODUCT SPECIFICATION

290/85D38 (11.2-38) Alliance 778 124A2

Alliance 778 is a Bias non-directional zero-degree lug tire, specially designed for the extra traction required for the Irrigation application. The unique design enables the movement of the fitment in forward and reverse directions, enabling ease of usage. The tread pattern consists of a tie bar at the center, which provides improved traction and life over a conventional 0-degree lug design. special ozone compound prevents the tire from cracking, Ozone cracking in turn increasing the tire life.

Technical specification

Brand	Alliance
Range	778
Size	290/85D38 (11.2-38)
Section width (mm)	284
Overall diameter (mm)	1455
Loaded static radius (mm)	650
Rolling circumference (mm)	4087
Listed rims	W10
Rating	124A2 132 CREEP
Load index	124
Speed rating	A2
Service description	124A2
