

ALLIANCE / TYRES / PRODUCT SPECIFICATION

500/50R17 Alliance 882 149D / 146E

Alliance 882 Implement tire combines the best characteristics of flotation tires and radial construction to provide superior performances on road and in field applications. One of its salient features is a strong fabric carcass reinforced by rigid steel belts. Its directional block configuration ensures best possible self cleaning ability and assists in keeping on/ off the road travel direction. Due to its huge internal volume the tire is characterized by low inflation pressure that promises low soil compaction for very high load capacity. This tire's stiffness is increased in both radial and lateral directions by additional ply added to the basic carcass.

Technical specification

Brand	Alliance
Range	882
Size	500/50R17
Section width (mm)	503
Overall diameter (mm)	932
Loaded static radius (mm)	419
Rolling circumference (mm)	2825
Listed rims	AG16.00
Rating	149D/146E
Load index	149 / 146
Speed rating	D / E
Service description	149D / 146E

Specification notes

Multiple service descriptions are listed for this size. Tell us your application, load and speed so the required specification can be confirmed.
