

ALLIANCE / TYRES / PRODUCT SPECIFICATION

600/55R26.5 Alliance 882 165D

Alliance 882 Implement tire combines the best characteristics of flotation tires and radial construction to provide superior performances on road and in field applications. One of its salient features is a strong fabric carcass reinforced by rigid steel belts. Its directional block configuration ensures best possible self cleaning ability and assists in keeping on/ off the road travel direction. Due to its huge internal volume the tire is characterized by low inflation pressure that promises low soil compaction for very high load capacity. This tire's stiffness is increased in both radial and lateral directions by additional ply added to the basic carcass.

Technical specification

Brand	Alliance
Range	882
Size	600/55R26.5
Section width (mm)	611
Overall diameter (mm)	1333
Loaded static radius (mm)	604
Rolling circumference (mm)	4043
Listed rims	AG20.00
Load index	165
Speed rating	D
Service description	165D
