

## ALLIANCE / TYRES / PRODUCT SPECIFICATION

# 650/65R26.5 Alliance 885 174D

Alliance 885 is specially engineered to carry high loads at high speeds for a wide variety of agri-transport applications. Its directional tread pattern provides superior traction and excellent self-cleaning. It has a steel belted construction that ensures lower downtime leading to lower maintenance cost and strong casing that provides higher wear resistance. The large footprint along with rounded shoulders provides crop protection and minimizes soil compaction making it an ideal agri-transport offering.

## Technical specification

|                            |             |
|----------------------------|-------------|
| Brand                      | Alliance    |
| Range                      | 885         |
| Size                       | 650/65R26.5 |
| Section width (mm)         | 645         |
| Overall diameter (mm)      | 1519        |
| Loaded static radius (mm)  | 669         |
| Rolling circumference (mm) | 4587        |
| Listed rims                | AG20.00     |
| Load index                 | 174         |
