

ALLIANCE / TYRES / PRODUCT SPECIFICATION

210/95R16 Alliance AGRI STAR II 106D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	210/95R16
Section width (mm)	214
Overall diameter (mm)	806
Loaded static radius (mm)	363
Rolling circumference (mm)	2381
Listed rims	W7 W6
Load index	106
Speed rating	D
Service description	106D
