

ALLIANCE / TYRES / PRODUCT SPECIFICATION

210/95R18 Alliance AGRI STAR II 108D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	210/95R18
Section width (mm)	210
Overall diameter (mm)	860
Loaded static radius (mm)	393
Rolling circumference (mm)	2557
Listed rims	W7 W6
Load index	108
Speed rating	D
Service description	108D
