

ALLIANCE / TYRES / PRODUCT SPECIFICATION

260/70R16 Alliance AGRI STAR II 109D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	260/70R16
Section width (mm)	262
Overall diameter (mm)	776
Loaded static radius (mm)	351
Rolling circumference (mm)	2302
Listed rims	W8 W8L W9
Load index	109
Speed rating	D
Service description	109D
