

ALLIANCE / TYRES / PRODUCT SPECIFICATION

300/70R20 Alliance AGRI STAR II 120D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	300/70R20
Section width (mm)	300
Overall diameter (mm)	956
Loaded static radius (mm)	438
Rolling circumference (mm)	2868
Listed rims	W9
Load index	120
Speed rating	D
Service description	120D
