

ALLIANCE / TYRES / PRODUCT SPECIFICATION

320/85R28 Alliance AGRI STAR II 124D / 129A6

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	320/85R28
Section width (mm)	334
Overall diameter (mm)	1265
Loaded static radius (mm)	576
Rolling circumference (mm)	3700
Listed rims	W11 W10
Rating	124D 129A6
Load index	124 / 129
Speed rating	D / A6
Service description	124D / 129A6

Specification notes

Multiple service descriptions are listed for this size. Tell us your application, load and speed so the required specification can be confirmed.
