

ALLIANCE / TYRES / PRODUCT SPECIFICATION

320/85R36 Alliance AGRI STAR II 128D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	320/85R36
Section width (mm)	333
Overall diameter (mm)	1460
Loaded static radius (mm)	680
Rolling circumference (mm)	4369
Listed rims	W11
Load index	128
Speed rating	D
Service description	128D
