

ALLIANCE / TYRES / PRODUCT SPECIFICATION

340/85R24 Alliance AGRI STAR II 125D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	340/85R24
Section width (mm)	355
Overall diameter (mm)	1192
Loaded static radius (mm)	550
Rolling circumference (mm)	3510
Listed rims	W12
Load index	125
Speed rating	D
Service description	125D
