

ALLIANCE / TYRES / PRODUCT SPECIFICATION

360/70R28 Alliance AGRI STAR II 125D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	360/70R28
Section width (mm)	357
Overall diameter (mm)	1251
Loaded static radius (mm)	570
Rolling circumference (mm)	3716
Listed rims	W11 W10 W12
Load index	125
Speed rating	D
Service description	125D
