

ALLIANCE / TYRES / PRODUCT SPECIFICATION

380/85R30 (14.9R30) Alliance AGRI STAR II 135D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	380/85R30 (14.9R30)
Section width (mm)	385
Overall diameter (mm)	1410
Loaded static radius (mm)	642
Rolling circumference (mm)	4208
Listed rims	W12
Load index	135
Speed rating	D
Service description	135D
