

ALLIANCE / TYRES / PRODUCT SPECIFICATION

540/65R30 Alliance AGRI STAR II 150D

The high speed rated AGRI STAR II comes with a Stratified Layer technology (SLT) - a unique combination of two layers: The top layer with a single angle profile and bottom layer with a multi-angle profile. After 40% wear of the tire, bottom layer of the lug comes in contact with the ground which leads to increased contact area at the central portion. This leads to better roadability and performance of the tire. The increased amount of rubber volume in AGRI STAR II enhances its stiffness that results in better wear resistance.

Technical specification

Brand	Alliance
Range	AGRI STAR II
Size	540/65R30
Section width (mm)	530
Overall diameter (mm)	1464
Loaded static radius (mm)	673
Rolling circumference (mm)	4431
Listed rims	W16L W18L
Load index	150
Speed rating	D
Service description	150D
