

ALLIANCE / TYRES / PRODUCT SPECIFICATION

IF 320/105R50 Alliance AGRIFLEX 354 152D

The advanced 354 AGRIFLEX Improved Flexion (IF) is designed to carry the same load as a standard radial tractor tire but at lower pressure or carry more load up to 20% at the same pressure. Together with all the advantages of Alliance's standard R-1W radial tractor drive tires, these tires allow lower inflation pressure for the same load capacity related to regular Row Crop tires. Stronger lugs, outstanding traction, excellent self-cleaning characteristics, and enhanced lug shape ensure exceptional durability, comfort, and a significant reduction of noise while driving on the road. Agriflex 354 gives a large tire footprint area for high traction, reduces fuel costs and increases overall productivity and provides high puncture protection and uniform ground pressure distribution due to its steel belts.

Technical specification

Brand	Alliance
Range	AGRIFLEX 354
Size	IF 320/105R50
Section width (mm)	323
Overall diameter (mm)	1938
Loaded static radius (mm)	901
Rolling circumference (mm)	5813
Listed rims	11 DW11 DW10 DW12
Load index	152
Speed rating	D
Service description	152D
