

ALLIANCE / TYRES / PRODUCT SPECIFICATION

IF 380/90R54 Alliance AGRIFLEX 354 171D

The advanced 354 AGRIFLEX Improved Flexion (IF) is designed to carry the same load as a standard radial tractor tire but at lower pressure or carry more load up to 20% at the same pressure. Together with all the advantages of Alliance's standard R-1W radial tractor drive tires, these tires allow lower inflation pressure for the same load capacity related to regular Row Crop tires. Stronger lugs, outstanding traction, excellent self-cleaning characteristics, and enhanced lug shape ensure exceptional durability, comfort, and a significant reduction of noise while driving on the road. Agriflex 354 gives a large tire footprint area for high traction, reduces fuel costs and increases overall productivity and provides high puncture protection and uniform ground pressure distribution due to its steel belts.

Technical specification

Brand	Alliance
Range	AGRIFLEX 354
Size	IF 380/90R54
Section width (mm)	380
Overall diameter (mm)	2056
Loaded static radius (mm)	949
Rolling circumference (mm)	6179
Listed rims	W13 DW13 W12 DW12
Load index	171
Speed rating	D
Service description	171D
