

ALLIANCE / TYRES / PRODUCT SPECIFICATION

IF1250/50R32 Alliance AGRIFLEX 372 201B

The advanced AGRIFLEX 372 Improved Flexion (IF) designed with increased sidewall flexibility enables the tire to carry up to 20% more load at the same pressure as compared to a standard tractor radial. It offers a significantly large footprint leading to low soil compaction and a comfortable ride for the driver. The larger footprint enables high traction, reduces fuel costs, and increases overall operational productivity. The R-1W pattern ensures excellent grip as well as a long tire life on hard surfaces.

Technical specification

Brand	Alliance
Range	AGRIFLEX 372
Size	IF1250/50R32
Section width (mm)	1250
Overall diameter (mm)	2080
Loaded static radius (mm)	914.9
Rolling circumference (mm)	6222.7
Listed rims	DW44B DH44HB DH44B
Load index	201
Speed rating	B
Service description	201B
