

ALLIANCE / TYRES / PRODUCT SPECIFICATION

VF420/85R28 Alliance AGRIFLEX 372 151D

The advanced AGRIFLEX 372 Improved Flexion (IF) designed with increased sidewall flexibility enables the tire to carry up to 20% more load at the same pressure as compared to a standard tractor radial. It offers a significantly large footprint leading to low soil compaction and a comfortable ride for the driver. The larger footprint enables high traction, reduces fuel costs, and increases overall operational productivity. The R-1W pattern ensures excellent grip as well as a long tire life on hard surfaces.

Technical specification

Brand	Alliance
Range	AGRIFLEX 372
Size	VF420/85R28
Section width (mm)	448
Overall diameter (mm)	1437
Loaded static radius (mm)	622
Rolling circumference (mm)	4205
Listed rims	DW15L DW14L
Load index	151
Speed rating	D
Service description	151D
