

ALLIANCE / TYRES / PRODUCT SPECIFICATION

420/95R50 Alliance AGRIFLEX+ 354 177D

The advanced 354 AGRIFLEX+ Very High Flexion (VF) is designed to carry same load as standard radial tractor tire but at lower pressure or carry upto 40% more at the same pressure. Together with all the advantages of Alliance's standard R-1W radial tractor drive tires, these tires allow lower inflation pressure for the same load capacity related to regular Row Crop tires. Stronger lugs, outstanding traction, excellent self-cleaning characteristics and enhanced lug shape ensure exceptional durability, comfort and a significant reduction of noise while driving on the road. Agriflex+ 354 gives a large tire footprint area for high traction, reduces fuel costs and increases overall productivity and provides high puncture protection and uniform ground pressure distribution due to its steel belts.
