

ALLIANCE / TYRES / PRODUCT SPECIFICATION

VF320/85R38 Alliance AGRIFLEX+ 354 155D

The advanced 354 AGRIFLEX+ Very High Flexion (VF) is designed to carry same load as standard radial tractor tire but at lower pressure or carry upto 40% more at the same pressure. Together with all the advantages of Alliance's standard R-1W radial tractor drive tires, these tires allow lower inflation pressure for the same load capacity related to regular Row Crop tires. Stronger lugs, outstanding traction, excellent self-cleaning characteristics and enhanced lug shape ensure exceptional durability, comfort and a significant reduction of noise while driving on the road. Agriflex+ 354 gives a large tire footprint area for high traction, reduces fuel costs and increases overall productivity and provides high puncture protection and uniform ground pressure distribution due to its steel belts.

Technical specification

Brand	Alliance
Range	AGRIFLEX+ 354
Size	VF320/85R38
Section width (mm)	319
Overall diameter (mm)	1510
Rolling circumference (mm)	4518
Load index	155
Speed rating	D
Service description	155D

Specification notes

Please ask Nordic to confirm the remaining dimensions and wheel requirements for your application.
