

ALLIANCE / TYRES / PRODUCT SPECIFICATION

VF480/80R46 Alliance AGRIFLEX+ 354 177D

The advanced 354 AGRIFLEX+ Very High Flexion (VF) is designed to carry same load as standard radial tractor tire but at lower pressure or carry upto 40% more at the same pressure. Together with all the advantages of Alliance's standard R-1W radial tractor drive tires, these tires allow lower inflation pressure for the same load capacity related to regular Row Crop tires. Stronger lugs, outstanding traction, excellent self-cleaning characteristics and enhanced lug shape ensure exceptional durability, comfort and a significant reduction of noise while driving on the road. Agriflex+ 354 gives a large tire footprint area for high traction, reduces fuel costs and increases overall productivity and provides high puncture protection and uniform ground pressure distribution due to its steel belts.

Technical specification

Brand	Alliance
Range	AGRIFLEX+ 354
Size	VF480/80R46
Section width (mm)	489
Overall diameter (mm)	1948
Loaded static radius (mm)	889
Listed rims	DW16L DW15L
Load index	177
Speed rating	D
Service description	177D

Specification notes

Please ask Nordic to confirm the remaining dimensions and wheel requirements for your application.
