

ALLIANCE / TYRES / PRODUCT SPECIFICATION

VF900/50R42 Alliance AGRIFLEX+ 372 180D

The Alliance 372 Agriflex+ Very High Flexion (VF) tires are designed with increased flexibility in the sidewall to enable the tire to carry up to 40% more load at the same pressure as a standard radial tire. They can also carry the same load as a standard radial tire with up to 40% less air pressure. This reduction in air pressure creates a bigger footprint for more traction, less slip, better fuel efficiency, and decreased soil compaction, resulting in more yield.

Technical specification

Brand	Alliance
Range	AGRIFLEX+ 372
Size	VF900/50R42
Section width (mm)	881
Overall diameter (mm)	1967
Rolling circumference (mm)	5816
Load index	180
Speed rating	D
Service description	180D

Specification notes

Please ask Nordic to confirm the remaining dimensions and wheel requirements for your application.
