

## ALLIANCE / TYRES / PRODUCT SPECIFICATION

# VF580/70R38 Alliance AGRIFLEX+ 373 175D

Agriflex+ 373 is a versatile R-1W agricultural pattern with a uniquely designed tread design. Sinusoidal center rib enables high performance due to minimized rutting and multi-angular sidewalls provide good traction on soft surfaces. The AGRIFLEX+ Very Improved Flexion (VF) technology provides increased sidewall flexibility enabling the tire to carry (up to 40%) more load at the same pressure as compared to a standard tractor radial. More number of blocks and a high rubber-to-void tread ratio enables low rolling resistance during transport operations on hard surfaces ultimately increasing the tread life. Agriflex+ 373 has steel belted construction offering a flatter footprint and puncture protection as well. The specially designed tread pattern offers tractive tendency up to 80% of tread wear.
