

ALLIANCE / TYRES / PRODUCT SPECIFICATION

VF500/60R22.5 Alliance AGRIFLEX+ 389 (IMP) 160D

Alliance Agriflex+ 389 VF introduces the next level of innovation: the world's first VF flotation tire offers the possibility to be operated at 30% lower inflation pressure as a conventional flotation tire. Our goal at Alliance is to develop tires that solve real problems in the field. With Agriflex+ 389 we have trailer tires which allow to mirror the pressure of VF tires on today's high horsepower tractors. This significantly reduces the footprint pressure and thus results in low soil compaction.

Technical specification

Brand	Alliance
Range	AGRIFLEX+ 389 (IMP)
Size	VF500/60R22.5
Section width (mm)	503
Overall diameter (mm)	1172
Loaded static radius (mm)	514
Rolling circumference (mm)	3492
Listed rims	AG16.00
Load index	160
Speed rating	D
Service description	160D
