

ALLIANCE / TYRES / PRODUCT SPECIFICATION

315/80R22.5 Alliance DUAL MASTER 528 158A8

Alliance 528 Dual Master's sidewall construction enables close contact between two tires excluding necessity to mount a special rubber ring in order to prevent stone penetration between the tires. Radial tire construction enables long tread life, comfortable run and low fuel consumption. Its strong all steel carcass provides machine stability, good puncture protection and re-treadability of tires. The 528 tread pattern belongs to the moderate traction group, providing effective performances on both, on and off road applications. Shoulder lugs provide efficient grip on soft surfaces.

Technical specification

Brand	Alliance
Range	DUAL MASTER 528
Size	315/80R22.5
Section width (mm)	325.5
Overall diameter (mm)	1100
Loaded static radius (mm)	508.2
Rolling circumference (mm)	3343
Listed rims	9
Load index	158
Speed rating	A8
Service description	158A8
